## ISOLATED TRACTS PURCHASABLE

It is now possible to purchase 160 acres of isolated land upon the public range, provided the said land is mountainous or too rough for cultivation. By a circular issued by the Commissioner of the General Land Office under date of April 20th, instructions were given local land officers for the procedure under the Act of Congress of March 28th, 1912, which was in substance as follows:

"Sec. 2455. It shall be lawful for the Commissioners of the General Land Office to order into market and sell at public auction, at the land office of the district in which the land is situated, for not less than one dollar and twenty-five cents an acre, any isolated or disconnected tract or parcel of the public domain not exceeding one-quarter section, which, in his judgment, it would be proper to expose for sale after at least thirty days' notice by the land offices of the district in which such land may be situated provided, that any legal divisions of the public land, not exceeding one quarter section, the greater part of which is mountainous or too rough for cultivation, may, in the discretion of said commissioner, be ordered into the market and sold pursuant to this act upon the application of any person who owns land or holds a valid entry of lands adjoining such tract, regardless of the fact that such tract may not be isolated or disconnected within the meaning of this act; provided, further, that this act shall not defeat any vested right which has already attached under any pending entry or location."

Approved March 28th, 1912.—  
Mid-Continent.
